### Summary

Results-driven Web Developer with expertise in crafting responsive, user-friendly, and scalable web applications. Proficient in modern front-end technologies (HTML, CSS, JavaScript, React.js) and back-end development (Node.js, Express, databases). Experienced in building interactive single-page applications and deploying full-stack projects. Strong focus on clean code, performance optimization, and seamless user experience. Passionate about leveraging technology to deliver innovative and impactful web solutions. Improving development practices.

### Skills

**Frontend:** HTML, CSS, JavaScript, React.js, Bootstrap

**Backend:** Node.js, Express.js, REST APIs

**Database & Tools:** MongoDB, MySQL, Git, GitHub, Firebase

**Other:** Responsive Design, Web Animations, Deployment (GitHub Pages, Vercel)

### Experience

#### Web Development Intern

*Pinnacle Labs (Remote)*

**July 2025 – Aug 2025**

*Tech: HTML, CSS, JavaScript, GitHub*

- Designed and developed a responsive personal portfolio website showcasing projects and skills.
- Built a functional calculator web application with clean UI and interactive DOM features.
- Used GitHub for version control, ensuring proper commits, documentation, and collaboration.

### Projects

#### Responsive and Animated Portfolio Website | *HTML, CSS, JavaScript*

- Enhanced a fully responsive personal portfolio website showcasing projects and skills.
- Integrated animations and transitions for better user experience across devices.
- Deployed and maintained version control using GitHub Pages.

#### Share Dear - Community Blood Donation App (Web + Mobile) | *Flutter, Firebase, Web Integration*

- Built a cross-platform application that connects blood donors with recipients in real-time using Firebase backend.
- Implemented authentication, donor registration, and request matching with cloud database.
- Extended features for web with responsive design and push notifications.

#### Calculator App | *JavaScript, Kotlin*

- Improved a responsive calculator web application using HTML, CSS, and JavaScript.
- Built a mobile version in Kotlin, practicing cross-platform problem solving.

#### Other Mini Web Projects | *Web Development*

- Expanded portfolio with projects like Tic-Tac-Toe, Dice Roller, To-do List, and a Weather App using APIs.

### Awards & Certifications

- **Responsive Web Design :** Completed training in HTML5, CSS3, Flexbox, Grid, and accessibility.
- **JavaScript Algorithms & Data Structures :** Built algorithmic projects improving DOM and ES6 proficiency.
- **Hackerrank – Problem Solving (C++ & JavaScript):** Achieved Gold Badge by solving coding challenges.

### Education

#### B.E. Computer Engineering

*Pimpri Chinchwad College of Engineering, Pune*

**Expected Graduation: 2027**

*CGPA: 8.2 / 10*
